

June 1 - 5 Extras

1. Virtual Zoo Trip: Check out the live cam feeds for all kinds of different animals like a platypus, hippo, or tiger!

<https://zoo.sandiegozoo.org/live-cams>

2. Leaf and Bark Rubbing Journal: Get outside and go on a nature hunt! Find as many types of leaves, bark, and even flowers as you can. Use a peeling crayon and piece of paper to create a rubbing of all the things you find.

5. Make Your own Instrument:

To make this instrument, you will need a cylindrical container with a lid. You could use something like a potato chip or oatmeal container or old soda cans. You will also need crayons, glue, construction paper and clean pebbles or dried beans.

- Cover the cylinder with the construction paper.
- Decorate it the way you want with the crayons.
- Put in the pebbles or beans and close the lid, making sure that it stays closed by gluing it.
- Once it is dry, your little one can play the new instrument
